EUT – Bottom View

A photograph showing the bottom view of a white, rectangular electronic unit (EUT) resting on a blue surface. A yellow tape measure is placed horizontally across the bottom of the device, indicating its width is approximately 14.5 inches. The device has a white cable connected to its side and a metal bracket with a screw attached to the bottom. A label on the bottom of the device contains technical specifications and the brand name 'mawik'.

EUT – Side View

A photograph showing the side view of the same white electronic unit (EUT) on a blue surface. Two yellow tape measures are used to indicate dimensions: one is placed vertically along the side, showing a height of approximately 10.5 inches, and the other is placed horizontally across the front, showing a width of approximately 14.5 inches. The device features a white cable and a metal bracket with a screw on its side.

EUT – Bottom View

A photograph showing the bottom view of a white, rectangular electronic unit (EUT) resting on a blue surface. A yellow tape measure is placed horizontally across the device, indicating its width is approximately 14.5 inches. The device has a white cable connected to its side and a metal bracket with a screw. A label on the bottom of the device contains technical specifications and the brand name 'mawik'.

EUT – Side View

A photograph showing the side view of the same white electronic unit (EUT) on a blue surface. Two yellow tape measures are used to indicate dimensions: one measures the height of the device at approximately 4.5 inches, and the other measures the depth at approximately 3.5 inches. The device features a white cable and a metal bracket with a screw.
